## How to use

### 1 70% Navy / White, 30% Gold

Always dominant navy and white. Gold only for emphasis – never as background for long text.

### 2 No gradients on logo

Solid colors only. Maintain contrast ratio 4.5:1 minimum for all text.

### 3 Digital & print same

Use exact hex codes above. No substituted blues or yellows.

WCAG AA compliant combination: Navy #0A1931 on White #FFFFFF = 16.2:1 • Gold #C1963A only for large headings or accents

# Official logo. Correct usage only.

Direct file from Instagram @samatvanyay. No recreation, no book, pen, scales added near logo.

## Clear space = x

x = height of NYAYA text. Keep on all sides. Minimum 120px digital / 25mm print. Use on white preferred, navy allowed.

### Use solid colors only

Navy #0A1931 and Gold #C1963A exact

### No stretch, shadow, outline

No extra icons (book/pen/scales) with logo

### No color change

Do not use gradient or altered gold

## File usage

Use logo\_transparent.png for all materials. For dark backgrounds, use white version. Keep proportional.
